

Pick up a Mark 5HD and you'll feel the difference; it's up to 20 ounces lighter than other scopes in its class. Get behind one and you'll see the difference, from the superior edge-to-edge clarity and extreme low-light performance to the versatility of the PR2™ reticle. With three revolutions of elevation adjustment, the Mark 5HD was built to max out the performance of the latest long range rifles and ammunition. It's ergonomically designed with more tactile, audible click adjustments, larger numbers, and a high-speed throw lever, so you can put accurate rounds downrange faster. And like all Leupold riflescopes, it's designed, machined, and assembled in the USA and guaranteed for life.

KEY BENEFITS

Leupold's Professional-Grade Optical System delivers the light transmission, glare reduction, and resolution professional guides and shooters demand

Provides accurate holdovers throughout the magnification range with front focal plane reticles

Engages targets at any distance with a large 5x magnification range

Extends long-range shooting with a lightweight 35mm maintube

Delivers 120 MOA or 34.9 MIL of travel using a precise and repeatable 3-turn ZeroLock® dial

Creates a visible aiming point in low-light conditions with illuminated reticles

Improves magnification changes with a integrated throw lever

Disperses recoil energy for unrivaled durability with ultra-lightweight construction

Superior ruggedness is verified through Leupold's Punisher testing process

Waterproof, fogproof, and guaranteed to perform for life
