THIS IS WHO WE ARE.™

For more than a century, we've been driven to explore beyond our boundaries. New places. New adventures. And no matter the frontier, we want to see it all—to take it in with perfect clarity and never miss a thing. It's a passion we've turned into a business. Now, our pursuit is to push another kind of boundary—our products.

Industry-leading technology, groundbreaking innovations, and superior craftsmanship help us build a full line of binoculars and spotting scopes that offer flawless optical performance and rugged dependability.

Explore this handy pocket guide, and get ready to do some exploring of your own.

GOLDEN RING FULL LIFETIME WARRANTY

Guaranteed for life, trusted for generations.

If your Leupold product doesn't work the way it should, we will repair or replace it: Free. You don't need to be the original owner and there is no time limit.

Leupold & Stevens, Inc. is a fifth-generation family owned company that has been designing, machining, and assembling precision optical instruments in Oregon since 1907. Our success has been built on our relentless pursuit of your absolute satisfaction, and our 650 American workers are dedicated to keeping it that way.

For complete warranty details, please visit Leupold.com/warranty.

BX-4 McKINLEY

/// NEW ///

The BX®-4 McKinley™ provides edge-to-edge optical clarity in stunning high definition. The HD lenses deliver amazing optical returns, with vivid colors and the sharpest picture across the entire visual field. It not only changes the way you see nature, it changes the nature of the game completely.

EDGE-TO-EDGE CLARITY

The flat field of view keeps things sharp and crystal-clear across the entire visible image.

TWIST-UP EYECUPS AND LONG EYE RELIEF

The BX-4 McKinley offers generous eye relief and twist-up eyecups that make them easy to use with or without eyeglasses. Eliminates glare and problems with the sun on bright, cloudless days.

NEW > 8x42mm // ●

NEW > 10x42mm // ●

CENTRAL FOCUS DIAL

Large, tactile focus dial is easy to find and use (even with gloved hands), giving you the precision focus you need to see every nuance and detail that nature has to offer.

ADVANCED HD LENS SYSTEM

Features extra low dispersion objective lenses paired with rare earth element-coated ocular lenses for superb color rendition and razor-sharp resolution. Get true HD performance in all lighting and weather conditions.

RUGGED, ARMORED BODY

A strong, lightweight magnesium alloy chassis is coated in tactile rubber armor coating for unsurpassed durability in the field.

FULL LIFETIME WARRANTY

BX-4 McKinley binoculars are covered for the life of the product.

ADVANCED LENS SYSTEM

Fully multi-coated lenses are combined with L-Coat™ BAK4 prisms to provide excellent photopic transmission for a clear, bright image under any conditions.

COLD MIRROR COATED PRISMS

This innovative technology improves the reflectiveness of the prisms for even greater color reproduction, resolution, and clarity.

TOUGH AND WATERPROOF

Nitrogen filled and 100% waterproof, they feature a durable black rubber armor coating.

WIDER FIELD OF VIEW

BX-3 Mojave binoculars deliver a wider field of view than similar competitive models.

TWIST-UP EYECUPS AND LONG EYE RELIEF

BX-3 Mojave offers generous eye relief and twist-up eyecups that make them easy to use, with or without eyeglasses.

IMPROVED CLOSE FOCUS

BX-3 Mojaves provide improved close focus (6 to 15 feet), depending on model.

FULL LIFETIME WARRANTY

BX-3 Mojave binoculars are covered for the life of the product.

BX-1 MCKENZIE

/// NEW ///

For those who want the high performance and streamlined, compact feel of a roof prism binocular—without the high cost—we proudly suggest our new BX-1 McKenzie™. You get all the rugged durability you expect; waterproof; BAK4 prisms; and fully multi-coated lenses for bright, vivid, and razor sharp viewing in the field or in the stands. And, all for less than \$150 (suggested MSRP). Available in 8x42mm and 10x42mm options.

ADVANCED LENS SYSTEM

New BX-1 McKenzie binoculars feature fully multi-coated lenses and BAK4 roof prisms for impeccably crisp, sharp images across all lighting conditions.

SLEEK, LIGHTWEIGHT DESIGN

The roof prism “H-design” fits comfortably in hand, and is compact when carried in a backpack or pocket.

TOUGH AND WATERPROOF

An impact-resistant polycarbonate frame features rugged armor housing and waterproof construction to assure performance you can count on.

MULTI-STAGE EYECUPS

Twist up eyecups provide for comfortable viewing and generous eye relief, even with eyeglasses.

GOLDEN RING COMPACT

U.S.A. ★ DESIGNED ★ MACHINED ★ ASSEMBLED

Golden Ring
10-20x40mm
Compact

Golden Ring
15-30x50mm
Compact

Created for those who carry a lot of equipment into the field and don't want to sacrifice quality, Leupold Golden Ring® compact spotting scopes offer outstanding optical performance in a smaller, lighter package. Ideal for camping or hiking, birding, or wildlife viewing, these Golden Ring spotting scopes allow you to experience crisp, bright images anywhere you go.

GOLDEN RING® 15-30x50mm COMPACT SPOTTING SCOPE KIT

Includes the spotting scope, quick detaching shoulder strap, custom padded belt case, lens covers, a specially designed mounting adapter for 1/4-20 threaded mounts, a sturdy tabletop tripod, and hard-side carrying case.

EASY TO USE

Perfectly balanced for handheld use, and ideal for any tripod, monopod or Leupold's Trek Pod II. The 10-20x40mm is a great choice for those who prefer or need a monocular.

EXTREMELY COMPACT

Just 15.8 ounces and 7.5 inches long, it's powerful enough to take anywhere and small enough to fit in a cargo or jacket pocket. (10-20x40mm)

21.5 ounces and 11 inches long, it fills a niche between our smallest and full-size spotting scopes. (15-30x50mm)

WATERPROOF

Filled with nitrogen and sealed to prevent leaking, they'll stay waterproof and fog proof in all conditions.

MULTICOAT 4® LENS SYSTEM

Multicoat 4 lens system for high resolution, and optimal brightness and contrast.

ADVANCED OPTICAL DESIGN

Multicoat 4 lens coatings and an anti-glare interior machining maximize light transmission and minimize diffraction.

FULL LIFETIME WARRANTY

Covered for the life of the product.

HIGH DEFINITION™

12-40x60mm
Golden Ring HD

Where there's a Leupold Golden Ring spotting scope, there's flawless image quality. Experienced birders trust the 12-40x60mm spotting scope for maximum durability in the field. The Golden Ring 12-40x60mm HD takes optical performance to the extreme with its fluorite-based, high-definition objective lens and the Leupold Xtended Twilight Lens System™. Either choice provides you with crisp, bright images for clear, positive identification.

GOLDEN RING 12-40x60mm HD SPOTTING SCOPE KIT

Includes the HD spotting scope; a Leupold compact, adjustable tripod; a window mount for your vehicle; a rugged, Cordura® view-through soft case; and a digital camera adapter. All in a hardside, reinforced case with custom padding.

SOFT-SIDE, FORM-FITTING CASE

Both the 12-40x60mm and 12-40x60mm HD spotting scopes include a form-fitting, soft-side case. Easily opens to reveal the eyepiece, objective lens, and tripod mount.

HIGH-DEFINITION OBJECTIVE LENS

Substantially enhanced color fidelity results in exceptional resolution and contrast, particularly at 40x.

EYE RELIEF

A constant 30mm eye relief is unmatched by any spotting scope on the market.

ASTONISHING IMAGE QUALITY

The versatility and clarity, even at 40x, is simply amazing.

XT ADVANCED LENS SYSTEM

The Xtended Twilight Lens System allows you to go further into the twilight with greater definition and luminance than any other scope in the world.

LENS COATINGS

DiamondCoat™ 2 lens coatings exceed military standards for scratch resistance and durability, with higher light transmission for greater brightness, clarity, and contrast.

FULL LIFETIME WARRANTY

Covered for the life of the product.

U.S.A. ★ DESIGNED ★ MACHINED ★ ASSEMBLED

This special edition high-definition spotting scope, carrying the respected Boone and Crockett® name, combines high magnification, advanced optical elements, and an 80mm high-definition objective lens group for the last word in resolution, clarity, brightness, and contrast. It offers the rugged durability and the exceptional optical performance you need for prolonged viewing, in any field condition.

Includes everything you need for unmatched observation in the field. Kit includes view-through Cordura soft case; lightweight adjustable tripod with multi-directional, tilting head; and a reinforced/padded carrying case.

Go further into the twilight than ever before;
with greater definition and luminance than
any other scope in the world.

Exceeding military standards for scratch resistance and durability, DiamondCoat 2 lens system provides the greatest level of abrasion resistance available, along with higher light transmission.

Generous eye relief makes this spotting scope comfortable to use, even during extended viewing.

Maintain the clarity of your images across a wider field of view.

Armored magnesium body is extremely durable yet easy to carry.

Covered for the life of the product.

SX-2 KENAI

HD
HIGH DEFINITION™

Kenai
30x, 25-60x80mm HD
Angled

Built for wide-open spaces, the SX-2 Kenai® is a high-definition spotting scope at an appealing price. Built for the long haul, it offers ease of use with exceptional toughness. Incorporating a premium HD objective lens and including two eyepieces, this spotting scope is right at home in just about any application.

SX-2 KENAI® SPOTTING SCOPE KIT

Choose from a straight or angled eyepiece design, with a soft scope case, two eyepieces, reinforced hard-shell carrying case, and tripod. The compact, adjustable tripod is lightweight with a multi-directional, tilting head. Segmented and adjustable legs keep it level, and non-slip feet keep it firmly grounded.

TWO EYEPieces WITH EVERY SCOPE

Every SX-2 Kenai is packaged with both a 30x wide angle eyepiece and a 25-60x variable eyepiece, making it an incredibly versatile spotter. It's like getting two scopes in one.

30x, 25-60x80mm Angled // ●

OBJECTIVE LENS

The high-performance, 80mm HD objective lens dramatically improves color fidelity, image brightness, and overall picture resolution.

MAGNESIUM BODY

The industrial design and lightweight material make the SX-2 Kenai easy to carry and operate, without sacrificing an ounce of toughness.

ADVANCED LENS SYSTEM

The SX-2 Kenai features Index Matched optics for crystal-clear contrast and color fidelity you can rely on.

TWO EYEPieces STANDARD

A fixed 30x wide angle and a 25-60x variable zoom.

RETRACTABLE LENS SHADE

Integrated into the body design, a retractable lens shade reduces glare in bright conditions, and keeps the objective lens dry in rain or snow.

BALANCED DESIGN

The SX-2 Kenai combines form and function in every way. An oversized focus ring is centered over the tripod mount to keep the SX-2 Kenai steady and stable. Comfortable holding points, aggressive knurling for a sure grip, and outstanding features are built in.
