The **Sightmark Mini Shot Pro Spec Reflex Sight** is an improved version of the most compact, lightweight reflex sight in the Sightmark line. Featuring five brightness settings, double-paned glass and a red reticle, the Sightmark Mini Shot Pro Spec is designed for users to keep both eyes open during use. The Mini Shot Pro Spec also features a front-mounted, digital on/off switch for easy activation for right and left handed shooters. Perfect for shotguns, rifles, and pistols the Sightmark Mini Shot Pro Spec is able to withstand heavy recoil with two locking screws that lock in windage and elevation adjustments.
