- Hard anodized finish

A versatile riflescope able to be used for close- to long-range shooting and everything in between, the Pinnacle 3-18x44TMD is sure to be the go-to optic for serious shooters. Featuring top-of-the-line Japanese glass and fully multi-coated lenses, the image clarity through the Pinnacle is second to none. For competition shooters, dedicated hunters and law enforcement/military personnel, a zero stop elevation dial and first focal plane reticle are a must, and the Pinnacle delivers on both. This high-performance, 34mm tube scope gives the option of capped or exposed turrets, allowing quick adjustments or protecting zero depending on the shooting scenario. For low-light situations, a single CR2032 battery powers a red/green reticle illumination option. The advanced Pinnacle 3-18x44TMD includes sunshade, turret caps (2), thread protector (2), CR2032 battery and manual.
