

SIGHT MARK®

Ultra Shot M-Spec Carbon FMS

SPECIFICATIONS

Magnification	1x
Objective lens size	33x24mm
Reticle type	65 MOA Circle Dot Crosshair (60 MOA circle w/ 5 MOA subtension, 2 MOA central dot)
Reticle color	Red
MOA adjustment (one click)	1
Elevation adjustment MOA	120
Windage adjustment MOA	120
Field of view (ft @100yd)	105
Battery type	CR2
Battery life	90 - 1000 hours
Dimensions (in)	4 x 1.9 x 2.4
Weight	7.1 oz

FEATURES

- Carbon fiber protective hood
- Fixed mount design fits weaver/picatinny rails
- Advanced, true color anti-reflective lens coating improves low light and night vision performance
- Motion sensing auto-on feature
- Cast magnesium alloy housing
- IP68 Waterproof rating - submersible to 40ft
- Low power consumption
- Digital switch controls
- Variable reticle brightness with night vision modes
- Interlok™ internal locking system
- Scratchproof lenses
- Lightweight
- Shockproof (.50cal)
- Wide field of view
- Parallax corrected
- Unlimited eye relief

INCLUDED

- Neoprene cover
- Battery
- Adjustment tools
- Manual

The all-new Sightmark Ultra Shot M-Spec FMS Carbon Fiber takes advantage of the same advanced optical design of other trusted M-Spec models, but features a real carbon fiber protective hood, helping it weigh in 30% lighter than popular reflex sights from other manufacturers. Fully submersible in up to 40 ft. of water, the M-Spec boasts a battery life of up to 1,000 hours and takes advantage of an accelerometer that detects motion and turns the unit off when not in use and on again when the firearm is moved again. The Ultra Shot M-Spec Carbon Fiber is equipped with an advanced, parallax-corrected optical system and true color anti-reflective lens coating, improving low light and night vision performance.
