

P1R PEACEKEEPER™

SINGLE- & DUAL-OUTPUT RECHARGEABLE LED FLASHLIGHTS

Model Number: P1R-A-BK (Peacekeeper Tactical)

P1R-B-BK (Peacekeeper)

UPC Number: 084871321624

084871321631

MSRP: \$250.00

SureFire Peacekeeper flashlights—developed by and for law enforcement—are powerful, game-changing rechargeable illumination tools built for the streets. They feature a high-performance LED focused by a precision reflector to create a stunning 600-lumen beam with significant reach and substantial peripheral illumination for situational awareness. While the single-output Peacekeeper Tactical delivers maximum output every time its tactical tailcap switch is pressed or twisted, the dual-output Peacekeeper also provides a useful 15-lumen beam—activated via its tailcap click

switch—which provides lower output and extended runtime for closer tasks. Powered by a readily available rechargeable 18650 lithium-ion battery with a long service life, Peacekeeper flashlights also run on two disposable 123A lithium batteries. A compact aerospace aluminum body with knurling for a secure grip makes both models ideal for everyday carry or use with a handgun. Mil-Spec hard anodizing and O-ring and gasket seals resist the elements and keep out moisture and debris, ensuring that Peacekeepers deliver exceptional performance in even the harshest environments. Built for cops but available to all.

FEATURES & BENEFITS

- Virtually indestructible high-output LED regulated to maximize output and runtime
- Reflector shapes far-reaching beam with intense center and significant surround light for peripheral vision
- Dual-output tailcap click switch on Peacekeeper (press or click for max output press or click again within two seconds for low output); tactical tailcap switch on Peacekeeper Tactical (press for momentary activation, twist for constant-on)
- Coated, tempered window resists impact and maximizes light output
- Weatherproof—O-ring and gasket sealed
- Constructed of high-strength aerospace aluminum with Mil-Spec hard anodizing for extreme durability
- Includes energy-dense 18650 lithium-ion rechargeable battery, AC charger, and DC car charger
- Backed by SureFire's No-Hassle Promise

SPECIFICATIONS

LED COLOR BODY COLOR

PEACEKEEPER

PEACEKEEPER TACTICAL

OUTPUT:

High: 600 lumens (Peacekeeper Tactical)
High: 600 lumens Low: 15 lumens (Peacekeeper)

RUNTIME:

High: 1.75 hours (Peacekeeper Tactical)
High: 1.75 hours Low: 46 hours (Peacekeeper)

BEZEL DIAMETER:

1.4 inches (3.5 cm)

LENGTH:

5.37 inches (13.6 cm) (Peacekeeper Tactical)
5.5 inches (14 cm) (Peacekeeper)

WEIGHT:

6.2 ounces (176 g) with batteries

SWITCHING:

Dual-output tailcap click switch—press or click for high then low output (Peacekeeper)

Single-output tactical tailcap switch—press for momentary activation, twist for constant on (Peacekeeper Tactical)

MATERIALS:

High-strength aerospace aluminum; coated, tempered window

FINISH:

Mil-Spec Type III hard anodized

COLOR:

Black

BATTERY:

18650 lithium-ion (included) or two 123A lithiums
