

CROSSFIRE™ HD 1400

LASER RANGEFINDER

OVERVIEW

If you're on the hunt for the perfect go-to laser rangefinder for bow and rifle hunters alike, you've found it in the Crossfire™ HD 1400. It carries light and hits hard, offering up to 1400 yards of ranging capability through a crisp, HD optical system.

WHY DID WE MAKE THIS LASER RANGEFINDER?

Our customers have been asking for an affordable, feature rich laser rangefinder with an HD Optical System, Red TOLED Display, and up to 1,400-yard max range for hunting in the East and Midwest.

WHAT IS NEW TO THE CROSSFIRE™ HD 1400 VS THE IMPACT® 1000?

- HD Optical System
- Red TOLED Display
- .1 Yard Increment Display
- Up to 1,400-yard max range
- New Soft Carry Case

WHAT ARE THE TOP USES FOR THIS PRODUCT?

Eastern and Midwestern archery and gun hunting.

WHAT ARE THE DIFFERENCES BETWEEN THE RANGING MODES?

Line of Sight (LOS) – Displays the actual line of sight range.

Horizontal Component Distance (HCD) – Displays the slope angle compensated for the target distance.

Scan Feature – Displays continuous distance readings while panning across a landscape. This feature is available with all modes.

WHAT ARE THE DIFFERENCES BETWEEN THE TARGET MODES?

Normal Mode – The standard mode providing the target's range with the strongest range result. Recommended for most situations.

First Mode – Displays the closest distance when ranging. Ideal for ranging smaller targets in front of other larger, more reflective targets.

Last Mode – Displays the farthest distance when ranging. Ideal for ranging a specific target behind a group of objects like brush, trees, rocks, etc.

WHERE IS THIS UNIT MADE?

Myanmar.
