

IMPACT[®] 1000

RANGEFINDER

WHAT IS THE DIFFERENCE BETWEEN THE IMPACT[®] 850 AND THE IMPACT[®] 1000?

The Impact[®] 1000 has a 1000 yard ranging capability on reflective targets, and ranges to 500 yards on deer. The Impact[®] 850 ranged to 850 yards and about 400 yards on deer.

WHAT ARE THE DIFFERENCES BETWEEN THE IMPACT[®] AND THE RANGER[®]?

Both models feature three ranging modes: HCD, LOS and Scan. And both have an easy to read display and can range in yards or meters. The Impact[®] 1000 uses a black LCD display where the Ranger[®] 1800 uses an illuminated OLED display. The Impact[®] 1000 has a 1000 yard ranging capability on reflective targets and 500 yards on deer, while the Ranger[®] 1800 goes out to 1800 yards on reflective targets and 900 yards on deer. The Ranger[®] 1800 is also tripod adaptable, and includes a belt clip.
