

RADIAN™ CARBON

CARBON FIBER TRIPOD + BALL OR LEVELING HEAD

ELEVATOR PITCH

The Radian™ Carbon changes the rules when it comes to fusing finesse and strength, combining aluminum and carbon fiber for an extreme strength-to-weight ratio. With an integrated level and 1mm marks for ultra-precise adjustments, plus your choice of a quick-release Ball Head or Leveling Head, you can swap out all your long-range tools quickly.

WHAT IS NEW TO THIS PRODUCT?

This is an entirely new tripod kit for Vortex® with extremely durable carbon fiber construction designed to be used as a shooting platform with an Arca-Swiss compatible ball or leveling head.

WHAT ARE THE TOP USES FOR THIS PRODUCT?

Long-range shooting.

WHAT ARE THE DIFFERENCES BETWEEN THE BALL HEAD AND THE LEVELING HEAD?

The Ball Head offers independent pan movement and tension control with an integrated level, 45 degrees of tilt, and notches for up to 90 degrees for all the travel you need. The Ball Head offers advantages when shooting or glassing at high or low angles as it offers greater elevation adjustment and the ability to level but still pan.

The Leveling Head offers smooth, intuitive control with rubberized, twist-to lock/unlock handle and +/- 15 degrees of leveling capability to guarantee precise positioning.

WHERE IS THIS UNIT MADE?

China.
