

# IMPACT SERIES

THERMAL SCOPE

TS150/TS250/TS350

## QUICK START GUIDE

- Fully charge the battery prior to first use.
- Press and hold the power button to turn the scope on.
- Adjust magnification by turning Menu Turret (zoom level displayed in upper left).
- Adjust the Focus Ring until the image is clear and sharp.
- Press Shutter Button to capture photo.
- Press and Hold Shutter Button to film video. Repeat to end filming.
- Press power button to refresh thermal sensor.
- Press and hold power button for 3 seconds to fully power scope down.
- Release power button prior to 3 seconds to enter Standby Mode.
- Press any button to exit Standby Mode.

# HELPFUL HINTS

- Fully power down scope before removing the battery.

**NOTICE:** Failure to do so can result in permanent damage to the scope.

- Thermal Imaging will not work through glass (will only show reflection).
- Power down the scope when not in use to best conserve battery life.
- Remove lens cover when using scope.

**Download the App to control your display, ballistic calculations, and trajectory parameters.**

- App: TargetIR
- Follow on screen instructions for setup
- Passcode: **12345678**
- Multiple devices can connect simultaneously to one scope.
